## TELL TORONTO PEOPLE

## HOW TO PREPARE A MIXTURE TO CURE RHEUMATISM

This Tonic Also Has Its Share of Dread Disease Which is Said to Yield to Hume Rich's Compound Syrup Sarsaparilla, three ounces.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one-half ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription, states a well-known authority in a Toronto morning paper, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe can't be doubted to greatly benefit many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a single time when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers so prefer.

Mild in Their Action.—Parnelle's Vegetable Pills are very mild in their action. They do not cause griping in the stomach or cause disturbances there as so many pills do. Therefore the most delicate can take them without fear of unpleasant results. They can, too, be administered to children without imposing the penalties which follow the use of pills not so carefully prepared.

"Now, all we want from you is a straight story," said the lawyer. "Sir," retorted the witness, "perhaps you are not a lawyer, but a prominent politician in this community and your insinuation constitutes an affront."

"Pardon me," rejoined the lawyer. "No offence intended. Just tell us near a straight story as you can."—Philadelphia Ledger.

A respectable looking man, apparently a nigger in his last clothes, paced at his side awhile watching him with close interest. Finally he asked for a light and got it. As he drew at his pipe to get it started he looked down at the man in the face. Then just as he was about to go on, he tapped the violinist's chest and said:

"But Paganini was the man," said he.

## GREEN CHINA CRAZE

Serves Use Two Shades, the Familiar Grass and Apple Tints.

It is the day of the specialist, even in china collecting. The field was found too vast to be covered by one collector, who realized that, though art might be long, her purse was not, and, moreover, that she was feeling, so here and there arose the being who decided to make one particular branch her own and to cleave to that only. Vine and white, white and green, the craze must begin with the more enterprising, branched off into other color schemes, of which green and white was the most attractive. But green is a color which has always fallen under the ban of being considered unlucky by the superstitious, and superstition is a hard nut to crack. Still, fashion surmounts all obstacles, and gradually we see the vortices of green china in the ascendancy. Incidentally the same thing is happening to prices. Green china of the right tint does not now have to wait long upon the order of its going.

Its supply is not equal to the demand. It is a fascinating pursuit and most decorative object when found, for though it looks its best massed together in bold groups, it mingles well with other china, which cannot be said for the old favorite, blue and white. But it is exigent in its background and surroundings. It calls loudly for white walls and china furniture and a somewhat contrived aspect generally, for most of the china in which it is used is plain, decorated with old fashioned poses of country life—roses and gillflowers, stocks and pansies.

Too services with wide shallow cups, dessert services, quaint jugs, vases and delightful baskets from the utility treasure trove. Bowls are few and far between, specimen pieces are far to seek. Green was a good wearing, useful, everyday color, nature's own ivory, and so the potter employed it for their most ordinary, commonplace articles, but not always. Sevres and Chelsea employed green as the body color on some of their most gorgeous vases and pieces, destined to be offered to kings, princes and the great ones of the earth.

Green used two shades of green, the familiar grass green and the apple tint. But Sevres, unless a family treasure, hardly comes within the ken of the ordinary collector, for if genuine its price is above rubies. Chelsea green approaches most nearly to Sevres; it is of a rich grass hue and was used as a ground color on vases and plates. In Worcester was famous for its apple green, in being the color of the introduction of Chinese green used to a good deal as a background to medallions of finely painted landscapes on plates and tea service.

APPLYING LACE.

A Neat Finish For Dainty Linen Hand.

There is a most delightful and very little known stitch by which lace is applied to a fine fabric, such as a handkerchief, and the finished effect is most beautiful.

It is known as incrustation and may be used for both insertions and edges. It is made as follows: Lay the lace over the fabric, the right side to the depth of half an inch or so. Baste it straight to a thread a little distance from the edge of the lace and take a stitch back into the fabric.

Draw the thread tight and put the needle in the fabric in the same hole in which it was first inserted and bring it out through the fabric and the extreme edge of the lace.

Draw the thread through the entire length. Take a back stitch through the lace edge and the fabric and bring it out in the hole which was pierced by the previous stitch. Repeat this until the lace is fastened to the fabric.

On the back it will appear like a heringbone stitch. Drawing the thread tight in this way and making practically a stitch and a half each time, the lace is finished with a pretty open edge which looks like hemstitching.

Now cut away the linen from under the lace to within an eighth of an inch from the edge. This raw edge does not make the work weak, and it launders beautifully.

Freemasons are not in the least bit afraid of a raw edge on the wrong side, and very often they avoid in this way what might be called saving a thing to death—sewing which takes away much grace.

To Build Artificial Island.

The war department has determined upon plans for the building of an artificial island at the entrance to Chesapeake bay. This island will be built up from a submerged ledge and will be a sufficiently large to contain besides a battery to command the approach to the bay's entrance, quarters and barracks for men and a parade ground for drill, together with suitable storehouses for provisions and ammunition which would be required for a protracted period. A part of the program is to the building of an artificial harbor to accommodate the supply of boats and submarines, the latter to form an adjunct of the coast defense system.—Harper's Weekly.

Shutting Out A Supply

"What shall we do with our ex-President?" enquired one solicitous citizen. "Ought we not to provide generous incomes and secure positions for them?"

"Perhaps," replied the other, "but it would be a serious blow to literature."—Washington Star.

GROWING GIRLS NEED PINK PILLS

This Tonic is Necessary for Their Proper Development and to Insure Health and Strength

There are throughout Canada thousands and thousands of young girls who are in a position approaching a decline in health, due to colds, or croup, or appetite, or a short walk or going upstairs, leaves them breathless and with a violent palpitation of the heart. Headaches and dizziness often adds to their misery. Doctors call this anemic condition, in common English, one pure blood. There is just one sure and certain cure for this ailment—Dr. Williams' Pink Pills.

These pills make new red blood, strengthen every nerve and bring a glow of health to pale faces. Do not waste time and money experimenting with other medicines. Do not delay treatment until you are in a hopeless decline. Get Dr. Williams' Pink Pills at once and see how speedily they will restore your health and strength. Here is the proof: Mrs. Joseph E. LePage St. Jerome, Que., to lose her health at the age of thirteen years, she suffered from headache and dizziness. Her head ached and she was pale and apparently bloodless. She had no strength and could neither study nor do any work. Doctors' medicine failed to cure her and she thought she was going into a decline. Looking Ahead.

Senator Bailey, of Texas, tells of one of his constituents, the father of a promising son, who had great difficulty in getting a Christian name for the youngster. "What's the trouble, anyway?" Mr. Bailey asked, with considerable interest.

"Yes, that's true," the father said, "but I don't want to hit on a particularly good name for him, one that is pretty, and has a distinguished sound, and which is not common, as there will be so many babies named after him when he is a year old."

Mr. Bailey's Warm Extremities does not require the help of any purgative medicine to complete the cure. Give it a trial and be convinced.

"Do you know how to cure a cold?" "If I did, I would be offering free advice on the street, or would I be occupying handsome offices and catering to a waiting list a mile long?"

Minard's Liniment cures Distemper, Love Affairs and Family Differences.

Often the Reason.

"Women do not disappear so much as men," said Mr. Hartley, an international detective, who was interviewed by a reporter on a mysterious disappearance which is now attracting much public attention.

"When a woman goes it is usually a love affair. Either the parents object to the match, or the woman is some cause. And it is important to remember what cunning schemers women can be. Even quite young girls may suddenly disappear for a long time, leaving things from their parents. During the course of my work I am very rarely found in the case of a young girl, and where the tendency does exist the family or friends usually know of it and keep watch accordingly. Again, it is possible a girl does not like the prospect of going home and may have been away for a holiday, and some one with whom she is in touch might assist her in carrying out a plan of her own."

"Disappearances are very common not only in London but in Paris and New York, and in every great city. A girl might arrange for her lover or some one else to meet her, and then she might disappear for a long time, leaving things from their parents. During the course of my work I am very rarely found in the case of a young girl, and where the tendency does exist the family or friends usually know of it and keep watch accordingly. Again, it is possible a girl does not like the prospect of going home and may have been away for a holiday, and some one with whom she is in touch might assist her in carrying out a plan of her own."

## Shiloh's Cure

# PAIN

Pain in the head—pain anywhere, has its cause in blood impurities, which are the result of an impure blood. At times, as in the case of Dr. Shoop's Headache Tablets, the blood is impure, and the result is a headache. Dr. Shoop's Headache Tablets are a blood purifier, and they are the only blood purifier that is not a poison. They are a blood purifier, and they are the only blood purifier that is not a poison. They are a blood purifier, and they are the only blood purifier that is not a poison.

If you have a headache, it's blood pressure. It's a painful period with women, more common than you think. Dr. Shoop's Headache Tablets are a blood purifier, and they are the only blood purifier that is not a poison. They are a blood purifier, and they are the only blood purifier that is not a poison. They are a blood purifier, and they are the only blood purifier that is not a poison.

## TROCHU VALLEY.

March 6. We quote the old saying, "If March comes in like a lion it goes out like a lamb." Certainly it came in like a lion this year. Nevertheless yesterday and to-day have been beautiful days, and on account of the recent fall of snow the glare of the sunlight has been very trying on the eyes.

After writing so joyfully last week we regret that this week our letter contains what seems at first sight bad news. Capt. Devilder, we regret to report lost his eldest brother a few days ago, who was the managing director of the largest bank in Northern France, Henry Devilder & Co., with a capital of \$5,000,000. The trustees of the company have compelled Capt. J. Devilder to return to France at the end of this month to take his brother's place. It is generally regretted that he cannot remain in Trochu, but we learn that the country will benefit immensely by this occurrence. The St. Ann Ranch Trading Co. will be run in future exactly as in the past, and a large real estate company is to be formed, the managing trustees of which will be half French and half Canadian. This company, with a very large capital, will purchase land all around this town and neighborhood for farming purposes, thus employing a large number of the people in this part of the country cultivating the land. It is intended to farm large wheat and other cereal lands. Capt. Devilder will return once a year for two or three months to perform his duty on this side, whilst during the remainder of each year he will manage this new company from his home in France. This will bring a lot of money into this country.

We also regret to report that Countess de Cathelineau and son, Mort Mort, Cathelineau, return to France this week. Mr. Cathelineau is returning to be married, and will return here afterwards. He will leave his mother, at any rate for a while to live with the rest of her family in Paris.

Capt. Eckenfelder has purchased Mr. Cathelineau's big house which stands on the hill east of the ranch and buildings.

Bertrand Cathelineau and Miss Cathelineau will remain in Calgary, and leave for their trip.

Mr. Crepin returned yesterday from Calgary.

Capt. Devilder and Mrs. Bouteille leave to-morrow for Didsbury en route to Calgary where they will stay several days on business.

A number of loads of rock have been hauled to the town for foundations for the new hotel and other buildings.

Mr. McPherson, J.P., and Mr. Bishop of Carlton left a visit to the police barracks on March 3rd. They had business with Corporal Tucker and also with H. Stabler, J.P. They left for the north next day.

By permission of the corporal-in-charge we visited the barracks this week, and for the first time since leaving the Old Country we saw a display of burnished steel. They are in common, with the Valley, in that they are very fine gramophone—Caruso played us very much. There is accommodation for a fair number of prisoners but we didn't expect that quarter very minutely for fear of a prolonged stay there. The barracks will be painted and decorated in and out this spring. There is accommodation for six or more horses in the stables.

For the benefit of those concerned we beg to state that the St. Ann Ranch Trading Co.'s office will be removed to the town from its present position in the Valley. The Company has rented the doctor's little house on Trochu avenue. Their telephone will be No. 5, Trochu Valley.

Mr. Papillard and Mr. Woodhouse have been busy with another removal. They moved the company's auxiliary store a mile farther up the further bank of the Red Deer river. This store is open every Thursday. Pom Pom

H. Hanson was fined \$13 at Red Deer last week for allowing a well on his ranch to remain temporarily uncovered and thereby allowing a neighbor's horse to drown itself.

## KANSAS.

The people of Kansas enjoyed a rare treat last Friday evening when they listened to the comedy "The Heroic Dutchman" of '69 which was presented in the Westward Ho school by the Show-Me Comedy Company. Mr. Wheeler the instructor is certainly to be congratulated on the troupe he has selected and also on the efficient manner in which he has his troupe drilled. The play is good throughout and the players received unanimous praise for the excellent manner in which they carried it through.

Should the Show-Me Company decide to visit Kansas with another play some time in the future they may be sure of a full house.

## Fire Drill Started.

The schoolboard met on Saturday evening last in the school house. Mr. Gaddes, chairman; G. M. Reid, secretary; Trustees Sexsmith, Weller, Rupp and Heml Ing being present.

An account from Head & Co. for boilers and brickwork was presented but the board decided that until the defects in the brickwork were remedied they would not pay the bill.

The following accounts were passed: R. Barron, furniture, \$76.30; cartage, 35c.; Jones, Nichols & Pescod, \$151; H. W. Chambers, school supplies, \$10.50.

A motion was passed to institute a fire drill in the school at once, the drill to be given once a week for a short time and then once every two weeks.

The question of disposing of the old schoolhouse then came up and it was decided to call for sealed tenders for the same, tenders to be in the secretary's hands by noon of the 21st inst. Ten months credit will be given at 8 per cent. interest, buildings to be removed by April 15th.

One offer of \$250 was received by the board for the buildings but they did not think this was enough and they decided to call for tenders.

Remember that when the stomach nerves fall or weaken dyspepsia or indigestion must always follow, but strengthen these same weak nerves with Dr. Shoop's Restorative and then see how quickly health will again return. Weak heart and kidney nerves can also be strengthened with the Restorative where heart pains, palpitation or kidney weakness is found. Don't drug the stomach, nor stimulate the heart or kidneys; that is wrong. Go to the cause of these ailments, strengthen these weak inside nerves with Dr. Shoop's Restorative and get well. A single, single test will tell. Sold by H.W. Chambers.

Board of Trade Meeting

The annual meeting of the Board of Trade was held in Fraternity hall on Friday night last, only about twenty members out of fifty being present, although those present were some of the leading business men and ones who can always be depended upon to turn out where the interests of the town are concerned.

W. H. Smith, President, took the chair and H. E. Osmond acted as Secretary in the absence of Mr. J. E. A. Macleod the regular secretary who was unavoidably absent.

The President submitted his annual report, which was a lengthy one, outlining the work accomplished during the year by the Directors and which showed that they are thoroughly alive to the needs of the town and should be supported by every business man and property owner in the district.

The report was received with applause and on motion by Messrs. Hiebert and Hexsmith was adopted unanimously.

F. N. Ballard, Treasurer of the Board, then gave the financial statement for the year. Receipts were \$127 and expenditures \$123.40, leaving a balance of \$3.65 in the treasury to start the year. The report was adopted.

After some congratulatory speeches from members present in reference to the work of the old Board of Directors the question of electing a new Board for the following year was taken up.

On motion by Messrs. Hiebert and Kuly it was decided that the former Board of Directors hold office for the year 1908.

The Board of Directors were W. H. Smith, President, J. E. A. Macleod, Secretary, F. N. Ballard, Treasurer, H. E. Osmond, O. W. Hembling, J. O. Williams, J. K. Stauffer, honorary member. N. B. Good having resigned from Didsbury his place was left vacant on the Board.

J. A. Findlay was elected to fill the vacancy.

It was decided, on motion, that the membership fee be placed at \$2 instead of \$1 for the year, to be paid at the first of the year.

The question of ways and means of advertising Didsbury at the forthcoming Dominion Fair at Calgary in a few months. After some discussion the matter was left in the hands of the Directors.

The question of financing the different projects of the Board was taken up and it was moved by Messrs. Hiebert and Ballard that the Directors wait on the Council and ask for a grant of \$100 to assist them in their work. Carried. The Board then adjourned.

There is a sanitarium in prospect for Lacombe, says the Advertiser.

Immisfail has a brand new board of trade with a membership of thirty. The fee is \$5.

A branch of the Farmers' Association has been organized at Bowden with twenty-nine members.

Sedgewick council contemplates furnishing free shade trees to residents who will plant them on their property.

W. J. Harbison, who is part owner of the Alberta Hotel at Oids, has purchased the Hoffman House in the same town.

The Representative asserts that one of Ledue's lumber yards has purchased 175,000 willow posts and 500 cords of wood from local farmers this year.

The latest social departure at Carstairs is cinch parties. Mrs. Hagan gave one a few persons ago and according to the Journal everyone enjoyed it immensely.

Tickling or dry coughs will quickly loosen when using Dr. Shoop's Cure. And it is so thoroughly harmless that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a long healing mountain shrub give the curative properties to Dr. Shoop's Cough Cure. It calms the cough and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop and take no other. Sold by H. W. Chambers.

February Weather.

The weather for the month of February in both 1907 and 1908 was very mild with the exception of the first few days of the month in 1907. Feb. 3rd last year will be remembered as the coldest day of that year, the thermometer registering 46 below with a cold south-east wind blowing. The report is supplied by C. L. Peterson.
